Overview of Direct Services

General administration of publicly funded substance abuse, mental health, and intellectual disability services in Mercer County is achieved through fiscal, information management and quality assurance functions within the Mercer County Behavioral Health Commission (MCBHC). Specific consumer services offered directly by MCBHC include:

- ◆ Prevention Services
- ◆ Central Intake, Evaluation and Emergency Services
- ◆ Case Management

Prevention - MCBHC works to provide comprehensive alcohol, tobacco and other drug prevention strategies that are structured to reduce individual and environmental risk factors and to increase resiliency factors in individuals. The strategies include information dissemination, education, promotion of community based programming, environmental initiatives and positive alternatives that exclude the use of alcohol, tobacco and other drugs. Prevention Specialists serve as substance abuse and mental health liaisons to the community at large and Mercer County Student Assistance Teams at junior and senior high schools. Prevention programs include but are not limited to:

- ◆ “On Applebee Pond” Life Skills Curriculum
- ◆ Mercer County K.I.D.S. Program

“On Applebee Pond” Puppets

- ◆ Parent-to-Parent Facilitator Training
- ◆ Student Leadership Conferences
- ◆ Tobacco Initiative
- ◆ Community Coalition Support and Collaboration
- ◆ Strengthening Families Program

Central Intake, Evaluation and Emergency Services— MCBHC is responsible for the intake assessment and level of service determination for individuals seeking publicly funded drug and alcohol, mental health and intellectual disability services in Mercer County. The Central Intake Unit also provides mental health emergency and crisis services. The assessment process is conducted to ensure individuals with D&A/MH/ID problems access service in a full continuum of care by identifying, referring, and authorizing appropriate levels of care. Based on the information gathered, the Central Intake Unit will be able to make a referral to the appropriate treatment environment.

Case Management - MCBHC provides individuals with assistance in the areas of needs assessment, service planning, service coordination, linkage to community supports and resources, and service delivery monitoring. These services are strength-based, voluntary in nature, and work to improve the individual's independence in such life areas as daily living. Activities of Case Management include: housing, education/vocational development, social supports/recreation, financial benefits/budgeting, and health/medical status. The MCBHC offers the following Case Management Programs:

- Mental Health Blended Case Management for individuals with mental health issues
- Intellectual Disabilities Supports Coordination Services for individuals (children and adults) with intellectual disabilities
- Drug & Alcohol Case Coordination to assist adults and adolescents with drug and alcohol abuse or dependency
- Early Intervention Service Coordination for children birth to three years with a developmental delay
- Forensic Case Management to individuals incarcerated at the County Prison, providing assessment and evaluation, group programming and crisis intervention

- Complex Case Coordination for children, adolescents, and families who are referred to and receiving BHRS services

Additional Services:

- ◆ **Mobile Psychiatric Nursing** - MCBHC provides Mobile Psychiatric Nursing (MPN) services to assist individuals with Serious Mental Illness who are residing in a community setting and are experiencing difficulties maintaining adherence to their medication regimen.
- ◆ **Recovery Specialist Services** - MCBHC provides Recovery Specialist Services to individuals with addiction issues or co-occurring mental health and addiction issues in need of outreach, mentoring, and peer support in all states of the recovery process. This service is provided by a PCB Certified D&A Recovery Specialist.
- ◆ **Peer Specialist Services** - MCBHC provides services to the consumer who meets the Seriously Mentally Ill (SMI) criteria to promote the knowledge to access and utilize available services and resources specified in the Individual's Recovery Plan. This service is provided by a Certified Peer Specialist.
- ◆ **Drug & Alcohol Utilization Review** - provides funding opportunities for individuals with limited or no Medical Assistance insurance the opportunity to address substance abuse problems in a residential setting.
- ◆ **BHRS Monitor Services** - available for children and adolescents diagnosed with an emotional disturbance and/or mental illness. BHRS Monitors serve as county designees who participate in Interagency Service Planning Team meetings.
- ◆ **Critical Incident Response Team (CIRT)** - serves the Behavioral Health needs of Mercer County in times of critical incident and/or disaster.
